

Quality Stationery Products

## Company Profile

## SONI POLYMERS PVT. LTD.

For over 35 years, Soni Polymers Pvt. Ltd. has been at the forefront of innovating and producing some of the best stationery items in the world. More than just ordinary office tools, they are a symbol of the ever increasing demand for quality products. This has led Soni Polymers to dream a possible dream, which is "To achieve an iconic status by making Soni Officemate a household name, sitting proudly amongst some of the most reputed and most admired stationery products of the modern era." The pursuit of innovation is basic to Soni Polymers culture. It shapes the strategy, defines the purpose, and governs every facet of the operations from research and development (R&D) that leads to newer innovative products, aesthetic appeal and affordability, to the production capabilities and the response to the ever changing market needs.

Nagpur, located in Central India, is a bustling city that enclaves our ISO 9001-2015 certified company which is spread over 4,00,000 sq.ft. of space and manned by a team of around 450 qualified staff, segregated into departments namely R&D, designing CAD/CAM, laboratory, mould development, moulding, production lines and packaging, who ensure that every product fabricated in Soni Polymers emboldens our dream of worldwide presence as a strong, reputed brand in stationery.

Each day our Stationery is put to use across the world: India, Asia, Africa, the Middle East, Europe, South America and the USA. This passion for capturing every market stems from the satisfaction of customer delight, which is only possible by maintaining quality, not as a destination, but an ongoing journey. And in the 21st Century, our journey continues with greater confidence- Circa 2010! We are fully equipped to meet requirements of Quality, Quantum, Supply schedules or Business economies of larger markets.

In fact, from revolution in capturing global markets to evolution in its products, Soni Polymers promises a tradition of innovation garnished with excellence in quality.

Make a mark on what you present in offices, schools, hospitals, etc. A tool that will stand testimony to your constant use and reuse on whiteboards. The marker is specially designed so that your words are emphasized not just on white boards, but on various other surfaces; and when you need to erase it, it comes off easily. It's refillable. However, with a high cap off time the refilling parameter is as good as obsolete for the marker. With practically no odour, and conforming to ASTM D-4236, writing with it is a pleasure indeed.

*New Way to Paint...  
Faster & Easier..*

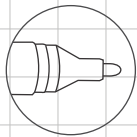

The most exciting new addition to graffiti and street art! **The new Soni Officemate ACRYLIC Marker range offers more than 20 brilliant water-based, pigmented, matte acrylic colors and are perfect for both interior and exterior use.** These versatile markers come in 3 sizes Extra Fine for fine lines, Regular for round lines and Jumbo for extra broad detailing . The optimum flow control pump valve system allows accurate handling and application. The extra fine and fine nib are the best choice for detailed work, while the standard and broad sizes are ideal for bold and colorful marks. The markers are lightfast, waterproof and abrasion-proof allowing for application to almost any surface, including canvas, wood, metal, glass and walls of all kinds. Soni Officemate ACRYLIC is also perfect for use with airbrush and traditional paintbrushes as well. Refill paints are available for mixing and matching custom colors, as are a range of empty markers and replacement nibs. With Soni Officemate ACRYLIC Paint Markers, the artistic possibilities are limitless!

Fabric painting with a marker pen or paint pen rather than brush and paint is particularly useful when it comes to painting thin lines. (And there's no brush to clean afterwards!) But that's hardly the only thing you can do with fabric markers or paint pens. They give you great control for "coloring in", work easily with stencils, and can be used with rubber stamps.

# LAUNDRY MARKERS

When you write with our Laundry Markers we ensure that the markings can withstand water and soap, and ensure that the markings do not fade even with repeated washing. They have plastic nibs that write on any fabric without bleeding. The ink dries instantaneously and stays permanent, and hence, is ideal for labeling textiles; be it for uniforms, personal clothing or for commercial application.

For General /  
Orthopedic &  
Bypass  
Surgery

For Plastic Surgery

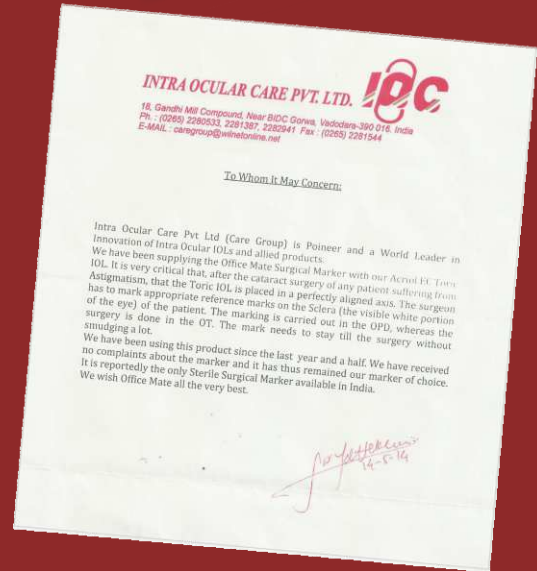

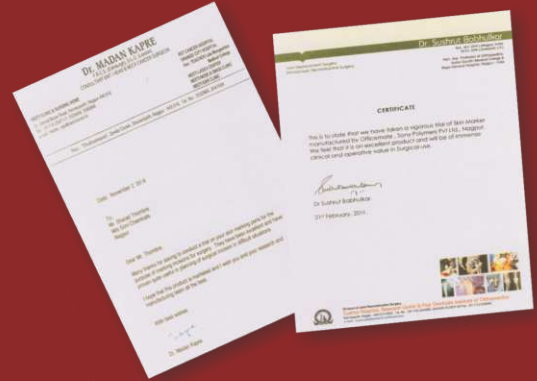

For Plastic  
Surgery for  
accuracy of  
incision

For Ophthalmic Surgery  
With Special Soft Nib

Reference plain marking on sclera / cornea for right angle incision

Every successful surgery begins with a precise incision. Our humble contribution to the field of medicine for surgeons at the forefront of cutting-edge technology in saving human lives - the Surgical Skin Marker. Marking on skin demands highly non-toxic inks that are sterile and gamma-radiated, helping the surgeons mark the location of incision precisely while keeping up with the highest standards of sterilization.

"Operation Theatre Tray is not Complete Unless It has **'Surgical Skin Marker Pen'**"

**Sterile**

"Operation Theatre Tray is not Complete Unless It has 'Surgical Skin Marker Pen'"

Available Color

Blue (Violet)

Before Gama Radiation After Gama Radiation

## FAQ ONLY

**Given below are the frequently asked questions of surgical markers along with their answers.**

**Question no.1:** Within how much time should the pen be utilized (assuming the pack is not opened) expiry date?  
**Answer:** 18 months, unless the pouch is not opened.

**Question no. 2:** Is there any indicator of sterility, In case there is micro pore in the pack Of skin marker?  
**Answer:** The pouches are thoroughly checked for leak. Hence the pouches are air tight. During the gamma radiation the indicator red sticker signal is affixed during the exposure of 18 hours of gamma radiation at Bhabha Atomic Research Center, which gets converted into yellow sticker indicating total radiation is completed & the product is sterile.

**Question no.3:** Can it be reused?  
**Answer:** It is one time use product for marking on skin. However it can be used as a regular writing pen for signing and for writing prescriptions.

**Dr. S.G. Thombre**  
 Director Sales & Mktg.
